BEN SALEH DERB TICHI NR 08, MARRAKECH, MOROCCO

SOFTWARE ENGINEER

I'm Omar, a passionate software engineer with expertise in C and C++. Currently, I'm a student at 1337, where I continually hone my skills and push the boundaries of what I can achieve in the tech world. I have a strong foundation in programming and a knack for solving complex problems. I'm always eager to learn and take on new challenges, whether it's developing efficient code or diving into the latest technologies.

STRENGTHS AND EXPERTISE

Problem-Solving
Adaptability
Attention to Detail

Programming Languages
Software Development
Algorithm Design

Team Collaboration
Debugging and Optimization
Version Control

EDUCATION

Baccalaureate in Experimental Sciences, Physics Option
Lycée Qualifiant le Maghreb Arabe, Marrakech, Morocco

2018-2021

Bachelor in Management and Business Sciences
(Incomplete)
Faculty of Legal, Economic, and Social Sciences Marrakech

October 2021- 2022

Software Engineer
1337 Coding School

October 2022 - Present

At 1337, I'm immersed in a rigorous and innovative curriculum designed to develop advanced programming skills and problem-solving abilities. The program emphasizes peer-to-peer learning, self-driven projects, and real-world coding challenges. Throughout my time here, I've honed my expertise in C and C++, while also gaining experience in algorithms, data structures, and software development. The hands-on approach has equipped me with the ability to work collaboratively in teams, think critically, and adapt quickly to new technologies and complex problems.
